

Steam Boiler FSB 3,3

Features and benefits

- · Capacity of 5 kg steam/h
- Steam boiler with electronic water level sensor, which ensures correct water level and long lifetime of the heating elements
- · Standard with two steam irons
- · Simple installation and maintenance

Main options

- Pump (for water pressure less than 200 kPa) with or without feed tank
- · Pivoting wheels
- · Steam or steam/air spotting gun
