 Potato Chipper - 7 mm with
 Grid and Pressure Block

Short Form Specification

Item No.

Compact manual potato chipper. Cast-iron body. Polished aluminium guide chute. Removable nylon pressure block with a stainless steel cutter block. Long lever reduces the force required to cut the potatoes. Three different cross sections of chips are possible by changing the cutting grid and pressure block. Cleaning is made easier thanks to the use of polished aluminium and the easily removable parts which are in contact with the potatoes. Can be installed on a table or wall console. Supplied with 7mm grid and pressure block.

Main Features

- On table or wall installation.
- Supplied with 7 mm grid and pressure block, without base (optional accessory).
- Long lever reduces the force required to cut the potatoes.
- Three different cuts are possible by changing the cutting grid and pressure block.
- Cleaning is made easier thanks to the use of polished aluminium and the easily removable parts which are in contact with the food.

Construction

- Cast-iron body.
- Polished aluminium guide chute.
- Removable nylon pressure block with a stainless steel cutter block.
